Privilege of the Floor:

Town Operations

- **Town Clerk:**

Ms. Whitney asked if anyone had any questions with her July monthly report, no questions.

Ms. Whitney presented the Standard Work Day and asked for a motion to approve the RS 2417-A.

**RESOLUTION TO APPROVE THE RS 2417-A FOR REGINALD
WHITNEY AND ANNA WHITNEY
RESOLUTION NUMBER: 214-2024**

**INTRODUCED BY: TERESA CHEETHAM-PALEN WHO MOVED FOR
ITS ADOPTION, SECONDED BY CHRISTOPHER DALY**

RESOLVED that the Town Board of Keene has approved the Standard Work Day and Reporting Resolution for Reginald Whitney and Anna Whitney.

Duly adopted this 13th day of August 2024 by the following vote:

AYES: Christopher Daly, Robert Biesemeyer, Teresa Cheetham-Palen, Ann Hough, Joe Pete Wilson

NAYS: None

- **Highway Department:**

Mr. Wilson has a quick update from the last two storms. Two storms ago, July 10th & 11th, the Governor did approve it as a disaster declaration, now FEMA is looking at all the damages.

Then with the storm last Friday the 9th the only road damage was on Styles Brook Road, one bridge is a Town bridge and the other is a County bridge. Both bridges had to be closed due to damage. We have a call into the County engineer to inspect then to tell us what the next step is.

Mr. Wilson stated Reggie is putting together a list of vulnerable sites and then asked AES to look at those sites and break it down into categories. What are we going to get grants for /what we can do with our budget.

Mr. Biesemeyer asked if we could get a temporary repair for Joe Edmonds as he is stranded.

Mr. Wilson stated we have contacted the County and we cannot do a temporary repair, we cannot proceed without the sign off from the engineer.

- **Water Department:**

Mr. Kennelly stated he sent a draft for the Water Law to the Board.

Ms. Li then explained there will be two laws, one for each District.

Town Discussion of Old Business:

- **Ausable River Association Project Funding Request**

Kelley Tucker and Gary Henry came to present the funding request.

Mr. Henry explained he will be starting the field data once the water comes down.

He feels there will be 15 to 30 areas that will need restoration.

Ms. Tucker explained once these places are identified we will come back to the board with designs and can use this for leverage for grant funding.

Please see attached memorandum.

Attachment #1-1524

- **Capital Projects**

Mr. Wilson provided an update for the Town Hall and asked for a change order of the contract we have.

**RESOLUTION TO APPROVE THE CHANGE ORDER OF THE
CONTRACT WE HAVE ON THE TOWN HALL PROJECT
RESOLUTION NUMBER: 217-2024**

**INTRODUCED BY: TERESEA CHEETHAM-PALEN WHO MOVED
FOR ITS ADOPTION, SECONDED BY ANN HOUGH**

Discussion:

Ms. Hough asked why almost a 40% increase.

Mr. Wilson replied we added more work and requested different materials.

Mr. Biesemeyer felt the material for the roof and door should be negligible. He also asked if we had proof of their Workmen's Comp and does it matter who they hire.

Mr. Kennelly replied as long as they have their Workmen's Comp it doesn't matter who they hire.

Ms. Cheetham-Palen asked, to Bob's point, she wants a breakdown of the additional costs.

Mr. Wilson asked to also put in prospective this is \$38,000 less than the next bid that we received.

RESOLVED that the Town Board of Keene has approved the change order of the contract we have on the Town Hall Project.

Duly adopted this 13th day of August 2024 by the following vote:

AYES: Christopher Daly, Robert Biesemeyer, Teresa Cheetham-Palen, Ann Hough, Joe Pete Wilson

NAYS: None

Mr. Wilson then stated, on the flip side we need to go out to bid for the building at the Transfer Station. He also stated he talked with Kevin Rollin at OFC and a change order is no problem as long as it is within the scope of the work but he was very clear you have to have go out to bid on a Capital Project until you receive a bid.

**RESOLUTION TO GO OUT TO BID FOR THE WORKSHOP
BUILDING AT THE TRANSFER STATION.**

RESOLUTION NUMBER: 218-2024

**INTRODUCED BY: ROBERT BIESEMAYER WHO MOVED FOR

Ann Whitney
Town Clerk
Town of Keene

14 June 2024

Dear Town of Keene Board Members,

Please accept this request for funding to advance the East Branch Restoration Plan in the Town of Keene. In 2023, the then Ausable River Association (our name changed this June), received Congressionally Directed Funds to address river resilience in the Town of Jay. As a part of that opportunity, we requested additional funds to support the Town of Keene by pursuing a geomorphic assessment and development of a plan compatible to the Town of Jay effort developed with Irene storm recovery funds.

We have set aside \$269,848 of Congressional funds to advance our effort in Keene which we estimate to cost \$280,000 over 2 to 3 years (2024-2026). We are requesting \$10,000 to make up our anticipated gap and to provide cash for our work on the front end of the project (all our funding is reimbursement based).

Our goal is to comprehensively assess and create an actionable plan for the upper East Branch Ausable system in the Town of Keene as has been done for the lower 12 river miles of the East Branch Ausable River in the Town of Jay. Improving upstream conditions is essential to the success of existing projects in the Town of Jay downstream and extends this valuable knowledge and planning resource to the Town of Keene. We will reconvene an Upper East Branch Restoration Technical Advisory Committee, reach out to community members and local officials, and create community defined goals to enhance the scientific assessment. We will refine the existing outline for data collection, pursue comprehensive hydrologic, hydraulic, and geomorphic assessment of the upper East Branch (some data will be developed in partnership with Resilient New York), identify project sites, prioritize these and create actionable plans/conceptual designs for priority projects. As in our assessment in the Town of Jay, our goal is to move beyond spot repairs (an eroding bank) to address systemic causes of erosion and create self-sustaining natural channel structure and function by identifying further stream restoration needs that improve flood resilience and public safety, protect infrastructure, enhance the functional integrity of large and small streams, and expand riparian habitat. With the final report in hand, long term planning, efforts to fund identified projects, and emergency preparation and response becomes more feasible.

Please don't hesitate to reach out to us if you have questions regarding our work or this request.

We deeply appreciate the strong partnership we've built with the Town of Keene over the years and look forward to building a resilient freshwater future with your help.

Regards,

Kelley Tucker
Executive Director

MEMORANDUM

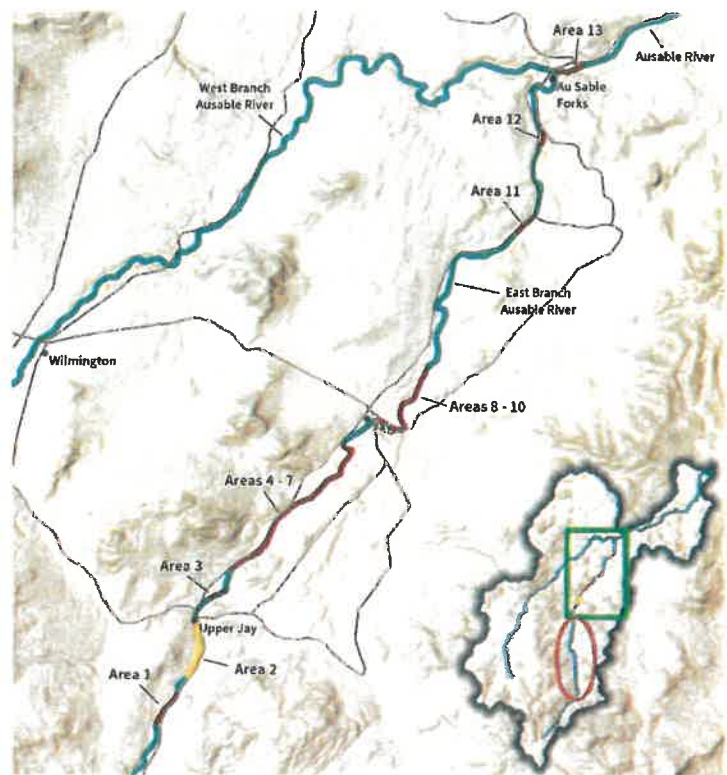

Date: 08/06/2024
To: Town of Keene – Town Board
From: Gary L. Henry, PG – Stream Restoration Manager, Ausable Freshwater Center (AFC)
RE: East Branch Restoration Program – Phase 2, Town of Keene

Background

The East Branch Restoration Program is a comprehensive strategy for protecting the East Branch Ausable River while creating flood resilience for the communities alongside it. The restoration program was developed in response to Tropical Storm Irene, which devastated the region in 2011. In the first phase of planning within the Town of Jay, a team of experts identified and developed conceptual designs for 13 stream restoration projects along the East Branch in the Town of Jay. Supervised by the US Fish and Wildlife Service (USFWS) and AFC, the first two projects were completed in 2021 and 2023 in Upper Jay.

What's Next?

In 2024, AFC will begin collecting field data as we expand our planning efforts to the 12 miles of river channel within the Town of Keene. Field data will include geomorphic assessment of the channel bed and banks to identify and prioritize areas that might benefit from restoration work.

Project Status
Completed Scheduled for Construction In Progress

Map (above): The East Branch Restoration Program identifies 13 areas in the Town of Jay in need of restoration to improve flood resilience, protect communities and infrastructure, and restore habitat for the food web that supports our native brook trout. AFC is expanding the restoration program through the Town of Keene in 2024 (red oval on lower right inset map).

As we prepare to start this work in August 2024, we would love to hear from the town board and the residents of Keene to help inform our scope of work.
